

Quality Policy Approval

B & T Oilfield Products

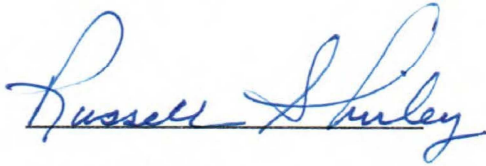

Broussard, Louisiana 70518

The quality policy that has been developed for B & T Oilfield Products is as follows:

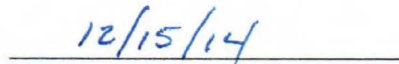

“B & T Oilfield Products strives to exceed customer requirements by continually improving its quality system through process control and other proactive measures.”

The policy has been created in accordance with the requirements of API Q1-9th Edition. It has also been reviewed and approved by the management of B & T Oilfield Products. Future revisions of the policy shall be re-approved in a similar statement before release.
