

STUFFING BOX / STAFF ASSEMBLY

ASSEMBLY DESCRIPTION

B & T can also provide Stuffing Box Assemblies (manual or 5000-10000 psi hydraulic), as well as the entire Staff Assembly. B & T can customize the Staff Assembly to customer specifications, including any type of Stuffing Box Packing, any type of Stuffing Box Glands, and the Sheave Wheel size of your choice.

The Stuffing Box Assemblies come in multiple different connections, so the customer should specify what type of connections are required.
