

## B & T XN LANDING NIPPLE

### ASSEMBLY DESCRIPTION

The B & T XN Landing Nipples include a lower No-Go shoulder, which engages the No-Go of the B & T XN Lock, a locking recess, and a polished bore. It is normally used as the lowest landing nipple in a compilation.

The B & T XN Landing Nipple can either have Pin X Pin connections, or Box X Pin connections, based upon customer requirements. Standard and premium connections are also available.

B & T has XN Landing Nipples in 4140 L80 and 9 Chrome materials in stock, however other materials are available upon request.

B & T can customize its XN Landing Nipple to fit to any customer specified seal bore or Plug customization.
